

NORTHERN PRECISION LIMITED
SPECIALIST FASTENERS

Environmental Policy

Quality ✓ Service ✓ Reliability ✓

Environmental Policy

Northern Precision is committed to reducing its environmental impact and continually improving its environmental performance and operating methods.

As a well-respected supplier of specialist industrial fasteners, we recognise our responsibilities towards the environment, the community, our customers, our employees and our suppliers. We believe in the importance of environmental protection and improvement for the long term sustainability of us all and also because it makes commercial sense. We recognise that our business activities have direct and indirect environmental impacts and try to manage them in a responsible way.

Through employee cooperation and efficient management procedures we undertake to:

- Support and comply with or exceed the requirements of current environmental legislation and codes of practice.
- Reduce our environmental impact in areas such as energy, waste reduction and recycling, packaging and paper use, transportation of people and products.
- Manage our buildings to minimise the environmental impact of our activities.
- Promote and encourage environmental awareness and best practice among our staff, suppliers and customers.
- Review our performance regularly and so identify further actions that should be taken.
